

## Is the accelerated TAE40110 Certificate IV in Training and Assessment blended model suitable for me?

The accelerated, blended TAE40110 Certificate IV in Training and Assessment program is a blend of 'flipped' on-line and face to face workshops and Recognition of Prior Learning (RPL). It has been designed for teachers currently teaching VET in Schools and recognises the prior teaching skills and knowledge that those teachers bring to this training.

'Flipped' learning requires participants to read text and PowerPoint slides on screen and complete formative assessments on line before they attend face to face sessions.

The following questions are designed to assist people to determine if this model is suitable for them.

- **Have you designed training programs and lesson plans?**
- **Have you designed assessments based on required outcomes and/or competencies?**
- **Have you taught students in years 10 to 12?**
- **Do you have some knowledge and understanding of Vocational Education and Training?**
- **Do you have access to a computer to complete the on-line component?**
- **Do you have access to a computer network fast enough to allow you to view videos?**
- **Are you comfortable reading text and PowerPoint presentations on screen?**
- **Are you able to commit to approximately 10 hours interacting with on-line activities prior to commencing workshops?**

If you answered no to any of these questions you may like to contact the Centre for Training Excellence on 9427 1555 for additional advice on the most suitable option for completing the TAE40110 Cert IV in Training and Assessment.
